## Be a Toilet Angel

### Regular Sponsorship

**How to donate :** Please contact to the Secretariat if you want international wire transferring.

### Project Sponsorship

#### • Toilet Construction Support Project

- It is the main project of WTA.  
It costs USD 35,000 for one project. If a single company supports a whole project, they can choose a desired country and region. Also, several companies can cooperate to support one project.

Toilet is named following the sponsor's name and the company's logo is placed on the signboard.

#### • World Toilet Leaders Forum

- Invite the developing country's toilet authorities and educate advanced toilet culture and technology of Korea.  
It costs USD 40,000 for one project (partial sponsoring available). Each items such as welcome reception or trips etc. can be sponsored, too. (Please contact WTA Secretariat)

Sponsor companies can get opportunities to promote their products at event scene. Logo is placed on event banners.

※Sponsors takes priority on invitation at WTA events.

※Donation receipt can be issued.

# WORLD TOILET ASSOCIATION

## Toilet Construction Support Project

### Toilet Construction Support Project

Our main objective is providing access to those who suffer from lack of proper sanitation and toilets. Toilet Construction Support Project targets developing countries designated by UN in which the majority of the population lacks access to toilet facilities. Working in collaboration with governments, NGOs, respective toilet associations, or companies, World Toilet Association plans, designs, and builds toilets in the selected countries. Toilet facilities can be tailored to the climate, culture, tradition and level of income of the target district. The primary goal is to build facilities that can be continuously used and maintained by community. Representative groups can submit proposals on behalf of countries in need.

Education is the most important thing for improving toilets. Without awareness, our goal of saving lives throughout the world cannot be accomplished. The main goals of World Toilet Association's educational programs are to show that inadequate toilet facility is a serious issue worldwide, to persuade people that improving toilets can save lives, and to come up with collaborative solutions to toilet-related problems throughout the world. World Toilet Leaders Forum is annual event inviting toilet experts from all over the world. Forum regards on case study for various countries, discuss how to improve toilet culture all over the world, sharing new technologies and idea, field trip for the benchmarking etc.

World Toilet Association designs Toilet Field Trips to share Korea's Knowledge, experiences and the benefits gained from its 'toilet revolution', organizes the training programs for them to get the latest information about various field of toilet industry, to offer the tips for the toilet management and how to improve cultural awareness of citizens and also holds workshops and seminars for the relevant expert and policy makers in public health.

World Toilet Association goes around the member country and holds Board of Directors Meeting every year, General Assembly every two years. Government Officials, Academic Researchers, Industrial Workers and others including WTA members who are interested in global toilet issues gather to discuss toilet-related issues.

The International Toilet Culture Conference will be held as an additional event, which will be held with each sub-theme depending on the host country. In the conference, experts from around the world will make a presentation about the pending issues to achieve UN SDG6, water and sanitation. Next generation toilet technology products which include water conservation technology are exhibited in conference hall. In addition, WTA operates technical tours for participants to experience advanced toilet technology or problem of the toilet situation.
