Exterior View

- It is located near the narrow-mouth frog ecology learning center and the ecology observation path in Manseok Park, Suwon, ROK. It is named after the narrow-mouth frog. (All public toilets in Suwon have their own names according to characteristics such as the place of installation or the shape of the toilet.)

There is also a playground nearby, so it is a toilet that citizens use a lot.

○ CCTV connected to the City Safety Integration Center is installed around the toilet, so you can use it with more safely.

Men' s Room

【Entrance, Interior View】

- Gender is indicated on the door with a simple pictogram, garden and Jangdok(Korean traditional platform for crocks of sauces and condiments) is installed inside to create a comfortable atmosphere.

【Urinal, Toilet Compartment–Sitting Toilet】

- The urinal automatic flushing sensor is installed to save water so that only the optimal flow rate required for urine washing is used.

【Washing Basin】

- The sink is equipped with a low washing basin for children, a hand dryer, and water soap for the convenience of users.

【Wall-mount Type Diaper Change Table】

- Diaper changing tables and collection boxes have been installed in the men's restrooms to ensure that any user accompanying infants and toddlers, regardless of gender, will not feel any inconvenience.

【Disabled Toilet】

- The door to the disabled toilet is equipped with an automatic door for convenient use, and an automatic flushing seat, handle, and automatic sensor faucet are installed.

- Multiple emergency bells are installed next to the toilet and under the wall so that you can call for help in any urgent situation, such as when you fall or suddenly collapse.

In addition, a chair for infants and toddlers has been installed so that families with young children can use it.

Ladies' Room

[Entrance, Interior View]

【Sitting Toilet】

- The ladies' room is equipped with a wall-mount baby chair and a toilet for kids.

- Emergency bells were installed in each toilet compartment, and illegal filming cameras were inspected monthly to create a safe toilet use environment.
- When you press the button on the emergency bell, the warning light works with a ringing sound, so you can ask for help from the outside in case of a emergency.

【Washing Basin】

【Diaper Changer Table】

【Disabled Toilet】

Other Amenities

- It is a public toilet that has obtained an excellent grade in the barrier-free living environment certification and is a toilet that anyone can use conveniently and safely.

- Braille information boards for the visually impaired have been installed so that people with disabilities can use the toilets by following the guide lines of the guide boards, and voice guidance is also available.

- A wall-mounted hand sanitizer dispenser was installed at the entrance to the public toilet to prevent infectious diseases, making it easy for anyone to use and manage.

○ An automatic flashing switch is installed to save energy.

○ Air conditioning is installed, so you can use it comfortably regardless of the weather outside.
